

# City of Wooster Utilities Department 2018 Water Quality Report

The 2018 Wooster Water Quality Report is now available for our customers.

In 1996, the U.S. Congress amended the Safe Drinking Water Act (SDWA) that included provisions requiring that all community water systems deliver to their customers an

annual water quality report. The Water Quality Report or Consumer Confidence Report summarizes annual efforts of the City to comply with State and Federal Drinking Water Regulations. The Report includes data and test results relative to water production. The Report also includes helpful information about our Source Water Protection Plan, How Water Meters Operate, Leak Detection, Back-flow Prevention and other helpful information for our customers.

annual efforts of the City to comply with State and Federal Drinking Water Regulations. The Report includes data and test results relative to water production. The Report also includes helpful information about our Source Water Protection Plan, How Water Meters Operate, Leak Detection, Back-flow Prevention and other helpful information for our customers.

The City of Wooster Utilities Department is pleased to announce the 2018 Water Quality Report is now available for download. Please type the following link into your internet browser

Hard copies are available at Wooster City Hall located at 538 North Market Street. If you would like to receive a copy of the 2018 Water Quality Report in the mail, please contact the Utility Office at 330-263-5286 and we will be happy to provide a hard copy at your request.

### Public Outreach Information

The City of Wooster is proactive in providing information to the public. For up to date news and helpful information please visit our website at <https://www.woosteroh.com>

The City of Wooster provides information on social media through Facebook, Twitter, and Instagram.

If you have questions about the Water Quality Report or general questions about your Wooster Utilities Department, please contact Nathan W. Coey, Utilities Manager at 330-263-5284 or email [ncoey@woosteroh.com](mailto:ncoey@woosteroh.com)

## OUR RESPECT

Our lives and communities are built on clean water and the infrastructure that supports it. It's so reliable that we might not give it—or the impact of our actions—a second thought. Respect water by taking the time to stop, think, and act.

## OUR EFFORT

We all consume water and create waste every day. Making smart choices helps us sustainably reuse water and manage waste to protect the environment and the systems that keep it flowing. A little effort goes a long way.

## OUR PASSION

Water professionals around the world work every day to recover resources and provide clean water to protect our health, environment, economy, and quality of life. Water is our passion. We'd like it to be yours, too.

## OUR HEALTH

Water and wastewater treatment has saved millions of people—all but eliminating waterborne diseases and advancing the health of our communities. We must work together to protect our global water environment. Our lives depend on it.

## OUR FUTURE

Water must be recovered, recycled, and returned to the environment. Our support of innovative solutions and technology helps us transform operations for greater efficiency, productivity, and long-term sustainability. It's an investment in our future.

YOU NEED WATER.  
WATER NEEDS YOU.

**WATER'S WORTH IT®**
