

HOME RELIEF GRANT

COMMUNITY ACTION WAYNE/MEDINA

Residents who are behind on rent, mortgage, and water and/or sewer utility bills may be able to receive assistance. Assistance can be applied to outstanding rent, mortgage, water, and/or sewer bills back to April 1, 2020.

Documents needed to apply:

- Names of all household members
- Date of Birth
- Social Security Number
- Current or Previous address
- Copies of Social Security cards for each household member
- Proof of Citizenship or legal residency for each household
- Proof of income for all household members 18 years or older for a minimum of the past 30 days
- Any supporting documentation to demonstrate need
- Hardship due to the COVID-19 pandemic

Households with an annual income at or below 200% of the federal poverty guidelines will be eligible for assistance. For a family of four, that is an annual income up to \$52,400.

To receive Rental Assistance, additional information:

- Eviction or past due rent notice. Notice should include total amount due (including fees)
- If moving to a new location, justification for the move (i.e. currently homeless, living with another family and not sufficient space etc.)
- Landlord verification/proof of ownership and agreement to receive funds
- Lease agreement

To receive Mortgage Assistance, additional information:

- Notice of late mortgage payment (including taxes and insurance)

To receive Utility Assistance, additional information:

- Copy of utility bill demonstrating the account has been shutoff, is in disconnect status or is past due

WHAT HOMEOWNERS CAN DO TO CURB STORMWATER POLLUTION

Stormwater runoff is rainwater as well as water from car washing, lawn watering and other sources. It can be washed down storm drains that lead directly to lakes, rivers and streams and, if polluted, may have adverse effects on plants, fish, animals and people. The following are all ways homeowners can help curb stormwater pollution:

1. Keep litter, pet wastes, leaves and debris out of street gutters and storm drains—these outlets drain directly to lakes, streams, rivers and wetlands.
2. Apply lawn and garden chemicals sparingly and according to directions.
3. Dispose of used oil, antifreeze, paints and other household chemicals properly—not in storm sewers or drains. The Stark-Tuscarawas-Wayne Recycling District has information about proper disposal of these items on their website: <https://www.timetorecycle.org/>
4. Clean up spilled brake fluid, oil, grease and antifreeze. Do not hose them into the street where they can eventually reach local streams and lakes.
5. Control soil erosion on your property by planting ground cover and stabilizing erosion-prone areas.
6. Purchase household detergents and cleaners that are low in phosphorous to reduce the amount of nutrients discharged into our lakes, streams and coastal waters.

This fact sheet was created by the City of Wooster, Engineering Division with information provided by the United States Environmental Protection Agency at <https://www.epa.gov/nps/basic-information-about-nonpoint-source-nps-pollution#urban>
