

Storm Sewer Rates Effective 3-1-2026

The basic unit of service for the storm sewer utility is 3,050 square feet of impervious surface (ESU). The current rate for the storm sewer utility is \$5.75 per ESU.

All single and two family residential properties in any zoning district will be billed sixty percent (60%) of one basic service unit (ESU). All other properties are billed for the number of basic service units of 3,050 square feet of impervious surface as calculated by the City Engineer's office.

Storm Water Maintenance Fee - \$3.65 per customer account per month
